BODY CHOPPER CHARACTER

In the shadows of Akishima Island; The Body Chopper wears rugged, aged and worn heavy-duty gear with tears, distressed fabrics and rough repair stitching across a long dark mask, full-length apron, utility straps, heavy faded trousers, and worn boots. A deep layer of dirt and grime covers the bare skin showing between sleeve and glove.

BODY CHOPPER CLOSE-UP

Distressed fabrics, scuffed leather-look textures, uneven grime and worn edges add to a heavily aged appearance. Gritty, tough, weighted fabrics with utility straps and buckles add a heavy-duty feel.

BODY CHOPPER MASK

The Body Chopper's mask covers the full length of the face down to the top of the chest. Its thick and weathered fabric has a heavily worn appearance with rough and erratic tan stitching around scuffed round goggle lenses. Mask straps leave the hair and back of head visible.

BODY CHOPPER APRON

The full-length dark tan utility apron has a wide scoop-neck chest panel and partial hip wrap. It features wide shoulder straps and added partial sleeve. Metal buckles, hanging strap ends, waist belt and utility pockets give an industrial appearance. The apron is highly creased and distressed with repair-style stitching and worn-edge detail.

BODY CHOPPER MACHETE

The Body Chopper has a long machete-style blade with a broad weathered surface, scratched metal finish, etched marks, and a wrapped handle.

BODY CHOPPER BOOTS

The boots are dark, heavy work boots with lace-up fronts, thick sturdy soles and side straps with buckles. The boots' matte finish is highly distressed, with dark grime around their worn seams and scuffed soles.

BODY CHOPPER GLOVES

The gloves are long, heavy-duty gloves in off-white grey with extended cuffs and visible seams. Creasing, scuffs, dark smudging, uneven weathering give them a well-used appearance.
